The **Villa dei Bosconi**, a new hotel located in a splendid position just at the beginning of "Bosconi area" of the hills of Fiesole, is totally immersed in this magnificent countryside. Despite being in an oasis of tranquility, the hotel is only 1 km from **Fiesole** and 8 km from **Florence** which can be easily reached... The beauty of the area will set the scene for the a wonderful week of "Love and Mischief"

Presents...

**European Apprenticeship
Program 2013**

Australian Apprenticeship Program

2013 – Love and Mischief

The sacred erotic manifests in our lives in more ways than pornographers and Fundamentalists can imagine. Committed monogamous bonds are one form, perhaps the most ultimately transformative. But then there is the dance that single folks do, and the mind-morphing "encounters" that unfold in almost everyone's life from time to time.

Right at the heart of the matter are those astonishing moments when souls touch and our faith in the Eternal Mysteries becomes as palpable as the force of gravity. What light can astrology shed on these precious connections?

Can it help us sort out lasting truth from the hormonal fog? In this workshop, we honour the fact that there are many good sexual paths available, each of which can serve a soul-purpose.

We'll respect sexual diversity. We will rejoice in the fact that humanity is moving beyond narrow definitions of marriage. We will celebrate everything except exploitation.

Technically, the seminar will explore intimacy from three perspectives...

First, the message of the individual birthchart.

Second, how charts interact through interaspects. And third, the composite chart. The language of the workshop is psychological.

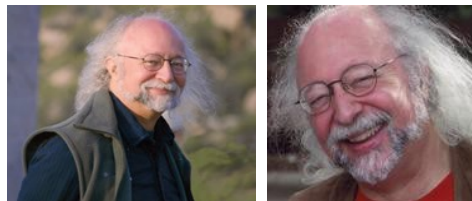

The background is unabashedly metaphysical – reincarnation language is used where appropriate, and techniques for seeing the prior-life dynamics of the couple are analyzed.

Overshadowing everything is a core commitment to extolling and supporting the power of human freedom, imagination and creativity to shape our responses to the questions the planets ask.

About the Apprenticeship

Program...

This apprenticeship program provides a practical education in client centered evolutionary astrological counselling. This process is inseparable from a commitment to one's own personal and spiritual growth. Both aims are incorporated into Steve's teaching. Students of life not wishing to attain a professional practice are most welcomed, and any of the seminars are designed to be done individually to the certificate.

Level 1 certificate is awarded after the student has attended 3 by 5 day programs.

Level 2 certificate is awarded after the student has attended 6 by 5 day programs.

Both of these levels then qualify you for a listing on Steven's website.

Lisa and Christine manage Mercurial Connections, and co ordinate Steve's Program both in Australia & here in Europe, aiming to provide participants with easy accessibility to the program. Any information you may need or questions you may have, we are here to be of service to you whilst providing the opportunity for continuing growth of the program and evolutionary astrology in Australia and beyond.
